

are you

PARTY

ready?

P REAPARED

Be prepared for the night by having a **party buddy**, knowing where to pick up **consumption supplies**, and planning a **safe way home**.

A WARE

Be aware that **mixing more than one substance** (including prescription medications and/or alcohol) can **increase your risk** for an adverse substance incident or drug poisoning.

R EVERSE

Use **naloxone** (*carry a kit!*) and give **rescue breaths** to temporarily reverse an overdose from opioids - including heroin, fentanyl, and prescription opioid medications.

T EST

Test your substances - know what you're taking so you can anticipate, assess, and respond to your body's reaction.
Find free, anonymous, and confidential **drug checking services** near you!

Y ES, YOU

Yes, you can keep both you and your friends safe by **making yourself ready** for whatever the party may bring!
